Gaea® 該亞

General information: White Glue, School Glue, PVA Glue, solid content 22%, high quality adhesive product, strong bonding **Recommended uses:** ideal for “do it yourself” home jobs, adhering paper, cardboard, light wood, fabric, textile materials. Ideal for craft and hobby. Ideal for school and children needs. **General directions:** surfaces have to be clean and free from dust or other materials. Apply to one or to both surfaces; for non – porous surfaces, allow the glue to become tacky to touch before bringing the surfaces together. Press gently. Bonding time: let the glue works, until it becomes dry. Surfaces can be slightly moved only for few seconds after being bonded.

Removal: Any excess of glue can be removed using a damp cloth. To wash out from children clothes, use hot soap water, especially when the glue is not yet dry. **Disposal:** only recycle empty tubes, accordingly to country’s indication provided by law. **Storage:** keep in a dry and well – ventilated place. Keep away from any source of heat or flame. Exposure to light may affect product quality. Keep the items between -10 and 40 °C. Under normal temperature (less than 40°C) shelf life can be 24 months. **Product Safety Data Sheet:** according to EC Regulation No. 1907/2006 (REACH) and to Annex II, EC Regulation No. 453/2010 available only under specific request.

Gaea® 該亞

Gaea® 該亞

General information: Super Glue. High bonding strength, simple operation, environmental friendly. Transparent and with mild smell. **Recommended uses** wide range of applications (household, office, printing, electronics, automobile, other industries). Ideal for small area material (5 * 5 cm). It can be applied both indoor and outdoor. Working temperature range: from -50°C to 100 °C. It can be applied to following materials: plastic, wood, stone, glass, ceramics, rubber, PTFE, silicon membrane, PET, PVC, PC, TPU. **General directions:** tools typically required paper tissues. **Safety precautions:** to apply in well – ventilated area with gloves. **Preparation:** surfaces must be clean dry and free from oil, wax or paint. Work in a protected area. For better adhesion, surfaces shall be lightly rough. **Application:** apply the adhesive to one surface, one drop per square inch approximately. Press surfaces together immediately. Hold in place for 5 to 30 seconds. Do not move. Wait 10 minutes for better adhesion. **Removal:** when cleaning up larger quantities of uncured adhesive, apply water and allow to cure and then scrape up. Note that this may result in damage to the surfaces. Cured adhesive may be cut away with caution using a sharp blade, removed with acetone or with boiling water. Note: Acetone is highly flammable and may not be suitable for use on all materials, test surface first. Follow manufacturer’s instructions **Disposal:** Only recycle empty tubes, accordingly to country’s indication provided by law. **Storage:** Store in a dry, cool (below 24°C) and well ventilated area. Shelf life: 12 months. **Product Safety Data Sheet:** according to EC Regulation No. 1907/2006 (REACH) and to Annex II, EC Regulation No. 453/2010 available only under specific request.

Gaea® 該亞

General information: Epoxy Glue. Superior solvent and water resistance, superior strength and durable. **Recommended uses:** The two-part, gap-filling formula easily bonds steel, aluminum, wood, ceramic, tile and most plastics. The easy-to-use syringe keeps the resin and hardener separate, so it is easy to dispense and will not harden over time. **General directions:** surfaces have to be clean and free from dust or other materials. Apply generously on both-sides and bond surfaces together. Press gently. Surfaces can be slightly moved only for few seconds after being bonded. Clamp time: 30 min.; Open time: 5 min.; Dry time: 24 hours; Dry color: clear; Full cure: 24 hours. **Removal:** washable from fabrics and children clothes at 40°C by most common washing machine programs. **Disposal:** only recycle empty tubes, accordingly to country's indication provided by law. **Storage:** do not expose to temperatures less than -5°C or more than +50°C. Shelf life: 24 months. **Product Safety Data Sheet:** according to EC Regulation No. 1907/2006 (REACH) and to Annex II, EC Regulation No. 453/2010 available only under specific request.
